# Why Choose Amson HDPE Pipes?

पम्प • पाईप • केबल

- Amson HDPE pipe has a safe and clean water supply
- Reduced risk of leaks and contamination
- Improved water pressure and flow rate
- Reduced maintenance and repair costs
- Proven track record of reliability and durability

## Applications

Portable Water Supply  
Infrastructure Projects  
Electric Cable Protection  
Industrial Effluents  
Irrigation Systems  
Gas Distribution Lines

## Specifications

- Diameter Range: 3/4" to 9" (25mm to 225mm)
- Pressure Ratings: 4 kg to 10 kg
- Raw Material: HDPE Granules (PE 100)
- Standards: ISI, ISO, JJM

### Features

MFD from Virgin Raw Material

Flexibility & Resistance to Cracking

Long Lifespan (up to 50 years)

Resistance to Sunlight/UV Resistant

Durable & Accurate Dimensions
